DAVIS DERBY

Scope

The design, development, assembly and service of monitoring and control products, together with the provision of management information systems, for the protection of people and plant in the materials handling and extractive industries.

These activities are all included in the scope of the QEMS.

Quality Policy

The company aims to be the preferred supplier to our customers by meeting and satisfying customer requirements via a process of continual improvement. Quality is built in during product design and maintained during production and after sales service.

The company operates and maintains a quality management system in accordance with ISO 9001:2015 and BS EN ISO/IEC 80079-34:2020. The processes, which underpin our business, are subject to continuous monitoring, review and improvement.

The company has a policy of employee training and personal development to maximise the contribution of all members to achieving the company's objectives.
